23	W 24	Orna O'Toole	GP		56.19

- new course record

Organiser's Comments

Sorry we made some mistakes with the presentations. Apologies most of all to those who should have got trophies as well as to those who were wrongly awarded. We will get the trophies out to the correct people as soon as possible and try hard to get everything right next year. We think the results are now correct so please let us know if you spot any errors.

All the races were competitive with fast times. Welcome and thanks to the two SUP's for adding even more spectator interest. Two course records were set by Stephen Swallow, again winner of the medium course and Danny Martin and Adie Carlin, new winners of the

short course. One record we didn't want was the four capsizes. Fortunately all seemed to recover themselves without discomfort.

Thanks to our new sponsors, Brendan Cunney and ILLUMIN8 TRAINING for enabling us to provide even more trophies and thanks to you all for £183.00 donations towards the BBQ and the event.

The organising team enjoy this event because of its amazing atmosphere. Many thanks to those of you who so willingly helped the weakest among us to get our boats and ourselves on and off the water. The paddling is the easy part it is the lifting and mobility required that stops us canoeing. Your helpfulness towards others enables the York Canoe Race to become a participation event for everyone. It is great to see an increasingly wide age and ability range taking part.

The provisional date set for next year is June 22, 2019. We will aim to have the information on our website well before Easter. Please keep on coming. *Philip Puckrin*
