Art O'Toole (for doing his first paddle)

Vince McKeown (for taking the longest time)

Organiser's Comments

It's great to have paddlers of all abilities coming to York from far and wide. It was an international race with competitors from Ireland, Wales and Rumania as well as England. The rougher water resulted in generally

slower times but Ben Beachell and Chris Bolton still set record times. Apologies to Alex Clarke, the fastest SK in the medium course, for omitting him from the presentation awards. We have now corrected the results. Please try our new event, Canoe Orienteering at Bishopthorpe on September 21st at Bishopthorpe. This will be enjoyable for all abilities and in all types of canoes and you might find it just as challenging as the race. We will try to get details of next year's race onto the website by the New Year. Keep on paddling, Phil.
