

York Canoe Race - Water Safety Plan

2026

Event Overview

This Water Safety Plan has been prepared in accordance with Paddle UK guidance and good practice for paddlesport events.

The purpose of this document is to identify the environmental conditions, participant requirements, hazards, and control measures associated with the Event, together with the procedures and resources in place to manage safety on the water.

Key elements of this plan will be communicated during the pre-event safety briefing for participants, marshals, and volunteers.
